

Daniel L. Dornan
Vice President for Transportation Management Consulting
Infrastructure Management Group, Inc.

Daniel Dornan, P.E., a Vice President for Infrastructure Management Group, Inc., is responsible for the Firm's management consulting services to the transportation industry, with a particular focus on asset management services and the infrastructure reporting requirements of GASB Standard No. 34. He has more than 25 years of experience in providing resource management services to state and local infrastructure agencies, including state departments of transportation; toll, transit, and port authorities; and local public works departments. Mr. Dornan's expertise includes asset management, organizational transformation, business process improvement, performance auditing and measurement, and strategic planning.

Prior to joining IMG, Mr. Dornan was the Director of State & Local Transportation Management Consulting for PricewaterhouseCoopers, Director of Transportation Management Consulting with Booz-Allen & Hamilton, and Senior Manager in the State and Local Government Consulting Practice of KPMG Peat Marwick.

Mr. Dornan holds a Master Degree in Business Administration, a Masters of Science Degree in Transportation Engineering, and a Bachelor of Science Degree in Civil Engineering – all from Rensselaer Polytechnic Institute. He is a Professional Engineer registered in the Commonwealth of Virginia.

Infrastructure Management Group, Inc. (IMG) is a full-service infrastructure consulting firm specializing in the management, finance, and development of transportation, utilities, public-use facilities, and the government services that support them. IMG offers state and local governments cost-effective approaches to respond to the infrastructure reporting requirements associated with GASB Standard No. 34, with particular expertise in life-cycle asset management and innovative financing strategies.
